

**SEPTEMBER 6 - OCTOBER 31, 2018**

# **HEALING THROUGH ART EXHIBIT**

**Has the healing power of art helped you cope with life's challenges?**

**Art has the power to heal – it has the natural ability to bring out the most inner and personal feelings a human being can experience. Art rewires the mind and releases feelings of calm and serenity that bring natural joy to people. Art promotes understanding between all people and provides a home to share stories that are not easily spoken.**

**Please submit pictures of  
your art to
